

Remember (Cinema Paradiso)

If one day you could see
Through my eyes the beauty
And happiness I see in you
When I see your eyes
The life I dream of can come true
Or is it just a dream?
Are you near?

If one day you could see
With my heart the yearning
Then you would know just how I feel
When I feel your heart
And when I drink you in my arms
And breathe you with my soul
We are one
Remember.

If one day you could see
With my soul the future
Time would stand still then
Disappear
This is all I ask
Just like a film that fades from view
My paradise was you
So I dream
Remember.
